DETAILED ACTION

1. This Office Action is in response to Appeal Brief filed 26 September 2005. The prior Final Office action is hereby withdrawn.

Allowable Subject Matter

2. Claims 22-33 (renumbered in order) are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 22, as Applicant has noted on page 10, 2nd and 3rd paragraph of Appeal brief, Bates and Shridhar and other cited prior arts, taken alone or in combination, fail to disclose:

“determine whether the source code line can be break pointed; if the source code line can be break pointed, identify the selected microengine to insert a break point into, which microengine threads to enable breakpoints for, and which microengines to stop if a break point occurs; if the source code line cannot be break pointed, signal an error.”

Such a limitation is similarly recited in independent claim 28. Thus all remaining dependent claims, claims 23-27 & 29-33 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
